

Raisul Islam Tonmoy

MERN STACK DEVELOPER

Shantiniketon, Tejgaon, Dhaka | 01930050425

[Gmail](#) | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFILE

A strong foundation in developing beautiful and user-friendly web applications. In MERN-stack technologies, I learn about React.js, Next.js, Node.js, MongoDB, and JavaScript, with a proven ability to design and implement efficient solutions. Now my goal is to work with a good company and experienced people so that I can increase my skills, education, and knowledge.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Bootstrap, Tailwind CSS, Vite, Farmer Motion

Backend: Node.js, Express.js, MongoDB

Tools & Others: Git, GitHub, Figma, NextAuth.js, JSON Web Token (JWT), Firebase Auth, WordPress, SQL

Deployment: Vercel, Netlify, Render, Firebase Hosting

EXPERIENCE

TechnoArt Software

Arambag, Mirpur2, Dhaka, Bangladesh

Jr Software Development & Operation

August, 2024 - June, 2025

- Assisted the Software Management Systems team with documentation, specifications, designs, test plans, Proposals, and testing.
- Built and maintained user-friendly web applications using HTML, CSS, Tailwind CSS, and JavaScript

PROJECTS

Plateshear [Live Link](#) | [Client-GitHub-Repo](#) | [Server-GitHub-Repo](#)

Overview: Plate Share is a modern web application designed to connect food donors with those in need, reducing food waste and helping communities share resources. Faced challenges with Vercel Deployment, resolved this through online research, and learned Redux and debugging during the process.

Key Features: A user can Add Food, Order Food, Manage Food, Edit food, Delete Food, and edit their own profile.

Tools: HTML, CSS, Tailwind, DaisyUI, Node.js, express.js, React.js, MongoDB, Firebase

Item_Sell [Live Link](#) | [Client-GitHub-Repo](#) | [Server-GitHub-Repo](#)

Overview: This is my small ItemSell web app built with Next.js. A platform designed to simplify online selling for individuals and small businesses. Faced challenges with Next.js because it's my fastest project made with this tool, so I resolved this through online research.

Key Features: Add Product, Manage Product, Edit, and Delete Product

Tools: HTML, CSS, Tailwind, DaisyUI, Node.js, express.js, Next.js, MongoDB, Firebase

Password_Manager [Live Link](#) | [GitHub-Repo](#)

Overview: Password Manager is a small-scale project designed to store your login information for all the websites you use.

Key Features: The user will have access to add, update, and remove their details.

Tools: HTML, CSS, Tailwind, Node.js, express.js, React.js, MongoDB
